

Slate satisfaction from Alexander Paul Antiques

Famed for the restoration of provincial style antique farmhouse tables, Alexander Paul Antiques is turning up the heat to offer homeowners something truly unique with its Slate Top Tables.

Made to measure in any size up to 7'3" x 3'11", these highly individual tables are bound to cause a stir and are made to the same exacting standards with which Alexander Paul Antiques restores more conventional offerings.

Sourcing reclaimed timber to make sturdy yet elegant and aged frames, Alexander Paul Antiques tops these with the finest slate at an inch thick to create a stunning and lasting dining centrepiece.

Mixing two beautiful and thoroughly natural materials, Alexander Paul Antiques' Slate Top Tables are sure to find a home in many traditional settings and there is also an option to create coffee tables and serving tables in the same unique fashion.

The largest Slate Top Table, measuring 7'3" x 3'11", costs just £2,499 and other sizes are priced upon application.
