

Marvelous real wood merbau from Quick-Step

The warm beauty of merbau and the variety of three-strip flooring come together in Villa Merbau Satin from Quick-Step Parquet.

Responsibly using a three-mm layer of real wood, Villa Merbau also does its bit to minimise its impact on precious natural resources. Finished with a hard wearing satin lacquer, the real wood floor will stay looking good and warming your home with its reddish tone and delicate grain for years to come.

Scratch resistant and quick and easy to install by yourself, Quick-Step Parquet features the famous Uniclic technology and is backed by a lifetime warranty. Quick-Step Villa Merbau Satin costs from £52.99 per square metre. For a stockist in your area visit www.quick-step.com.
